Supporting Your Business"

NEWS LETTER

HOLIDAY LUNCHEON:

HVAC will be hosting it's 17th annual Holiday Luncheon in appreciation of our customers at 11:30 on Wednesday, November 18th at our Broadway store. Be sure to mark your calendar for this must attend event. It includes all you can eat Italian food served by Sal and Gary with the support of our able staff (without them we could not make it happen). Yes, Sal will once again be cooking up his famous Italian sausages. Of course there will also be door prizes, drawings, discount specials and a host of manufacturers and representatives to showcase the latest & greatest products and answer all your questions.

NEW PRODUCTS:

★ Goodman is now shipping their new 12.5 Ton light commercial product line consisting of gas electrics, heat pumps and packaged air conditioners. These units share a common foot print and roof curb as the current 7.5 & 10 ton units.

★ Honeywell has just introduced their new "Glowfly" igniter. We are now stocking this truly "universal" replacement part. The Glowfly is a next generation silicon nitride ingiter that can replace over 110 models with iniversal bracket design and carries a 3 year warranty. Every service truck should stock this part. Save time save money.

★ HVAC is now selling Solar Hot Water systems. They are available in either packaged or custom designed systems. Contact Doug or Bob for questions and pricing.

FACTORY PROMOTIONS:

★ **Buy 10 Get \$500.** Goodman & HVAC are offering our dealers an incredible promotion from October to February 28, 2010. Ask for a "Goodman Card". Each time you buy a Goodman or Amana compressor bearing unit or gas furnace (rooftop units count as 2) we will mark your card. When you have 10 units showing on the card turn it in and receive \$500 off your next Goodman purchase. Offer is good only for will call orders. Contract pricing or special quotes do not qualify for this program.

★ Goodman is now offering a special price of \$49 for their 10yr parts & labor service agreement exclusively for high efficiency systems through February 2010. The system must contain either a high efficiency condenser or a 90+ furnace (variable speed 80s also qualify). Only GoodCare or Assure Dealers can qualify for this offering.

★ Goodman is also offering their standard 5yr parts & labor service agreements for \$39 through 2/28/10
