A trusted source for 25 years

Furnace & Air Box Special Continues for February

HVAC Supply has decided to continue our special furnace pricing promotion and **FREE RETURN AIR BOX** give-away (with purchase of featured furnace) for one final month.

Now through the end of February, you can purchase the **GMS80603AN** (80% AFUE) for **\$372.10** and the **GKS90703BX** (92% AFUE) for **\$561.79**. Plus with each purchase of these featured furnaces, you will receive one of our custom return air boxes to fit absolutely **FREE**. This special promotion will end at the end of February so make sure you take advantage of these special deals before they are gone for good!

Fasco Factory Replacement Vent Motors

HVAC is proud to offer a new line of original equipment spec vent motors. We now have vent motors available for select Carrier, Trane, Lennox, Rheem, and York furnaces. We are typically able to match vent motors by the original equipment part number. These motors are competitively priced and in stock now. Please call our parts counter with any questions.

Counter Day with Buche/Carmco

Swing by HVAC's Broadway location on Tuesday, February 7th between the hours of 8:00am and 1:00pm to see the latest product offerings from companies such as Solar and Palau, SharkBite, and First Company. Breakfast will be provided to those who get here early enough and lunch will be served from 11:30 until 1:00. Factory sales representatives will be on hand to answer all your questions so don't miss it!

New 80% Furnace Firing Rates

As many of you have noticed over the past few months, model numbers on the Goodman/Amana 80% furnaces have changed. Until now, this change was just to the model number and not to the firing rate. As of now, the reduced firing rate (2500 BTU/burner) furnaces are shipping and will be replacing current warehouse inventories. In addition, Goodman will continue to produce furnaces with 140K BTU/h capacity. We will continue to keep you informed as we receive the new furnaces.
